## about made.

Hand mined. Hand made. All of the jewelry is made exclusively with authentic Quartz & Quartz crystal that Stacy has mined directly out of the Ouachita Mountains in her home state of Arkansas. She creates pieces that are a beautiful contrast between raw, organic nature and clean, minimalist lines. **made. exists to sow hope.** Stacy does this through her jewelry by reminding women that they are wonderfully made, remarkably unique, so worth the dig, and full of purpose just like the stones she pulls from the muddy mountains.

**made.**
